

GERMANS START TURNING MOVEMENT

BERLIN CLAIMS FOUR THOUSAND MEN CAPTURED

KOSITZKY HELD IN CONTEMPT BY JUDGE ROBINSON

Declares State Auditor has Been
Just as Guilty as Tho he At-
tacked Court with Club

JUSTICE DEFENDS HIS RIGHT TO TRY ACTION

Heated Arguments between Bench
and Bar marks Opening Rounds
in Expense Item Battle

"This is just as much a case of contempt as though Mr. Kositzky had come in here and attacked this court with a club," said Justice J. E. Robinson this morning in defending his right to sit as a member of the provisional supreme court which is hearing argument on an order for a writ of mandamus compelling the state auditor to turn over to each of the five justices of the supreme court approximately \$375 which has accumulated in the \$500 per annum expense fund since the first of 1917.

Although Assistant Attorney General Brennan, representing the court, admitted there might be some merit in the state auditor's contention that Justice James E. Robinson, as a party immediately interested in the outcome of the action, was not qualified to sit as a member of the provisional court, Justice Robinson declined to concede that there even was room for argument on the question.

"Each justice of the supreme court has the privilege of determining his own qualifications. I have done so in this case, and I sit in this case without the least hesitancy. Only extreme nicety keeps the other justices from sitting. You needn't say another word about it—I have decided to sit and I will sit."

Brennan, on behalf of the court, argued that in 1907 the legislature voted the justices an additional compensation of \$500 per annum, intending that it should be an addition to their salaries, or that it might cover expenses incidental to their services as justices and maintain their salaries unimpaired. He held that the legislature never intended that this item should be audited by the state auditor, any more than it requires that regular salary payments be audited, and that it was expressly excepted from constitutional provisions covering other claims.

Former Senator Theodore Koffel, representing State Auditor Kositzky, held that Justice Robinson was not entitled to sit in this case and that it had been so determined in the case of Linde ex rel Robinson, tried a year ago before a provisional supreme court.

Judge Robinson informed Attorney Koffel that he (Robinson) still maintains that it was not proper for a provisional court to organize a provisional court of district judges, as it did a year ago, and that he never had recognized the provisional supreme court as representing the supreme court of North Dakota.

Koffel quoted an opinion from Chief Justice Bruce holding that an interested justice should not sit, but Robinson stood pat.

Helped Pass Act.

Koffel advised the court that he assisted in the passage of the act of 1907 awarding the justices of the supreme court an additional \$500 per year for expenses, and that the item was considered solely in payment of expenses, and that the items which it was to cover had been audited by the legislature before the bill was passed. He declared the item never was treated as salary, and that it could not constitutionally have been regarded as salary, as it would have been impossible for the legislature to increase the compensation of the then members of the supreme court during their term of office.

The first quarterly payment under this act was drawn by the three justices then serving 10 days after the signing of the act, which carried an emergency clause. The justices then considered the quarterly payment as reimbursing them for traveling expenses already incurred, and the item cannot now be considered otherwise than as expense, else the act itself would be held unconstitutional and void, contended Koffel.

Counsel for the state auditor had not completed its opening argument, at noon, when adjournment was taken, until 2 o'clock this afternoon, with the signing of the act, which carried an emergency clause. The justices then considered the quarterly payment as reimbursing them for traveling expenses already incurred, and the item cannot now be considered otherwise than as expense, else the act itself would be held unconstitutional and void, contended Koffel.

WON'T ENTER BIG CLAIMS.
London, Dec. 1.—The German foreign secretary, Dr. von Kuhlmann, is quoted in a Central news dispatch from Amsterdam as saying it was absurd to imagine Germany would enter a peace conference with large claims.

GOULD ON DUTY; HE IS SERGEANT NOW

CORPORAL KINGDON GOULD

Kingdon Gould, millionaire selective service soldier, has been promoted to sergeant in the national army. He is shown here on duty at Camp Dix, N. Y. He won his promotion through his knowledge of engineering, and because he was a linguist and was quick to grasp soldierly duties.

Last July Gould surprised his friends and family by his marriage to Miss Annette Lucci, Italian governess and artist.

CONFINE WORK TO WAR BILLS SAYS WILSON

President Believes All Matters
Should be Laid Aside for
Time Being

PREPARATIONS MADE FOR OPENING OF CONGRESS

Washington, Dec. 1.—President Wilson believes congress should confine itself almost entirely at the coming session to legislation for the vigorous prosecution of the war. He is expected to tell congress so in his opening address, which will be delivered in the hall of the house at 12:30 o'clock Tuesday. All arrangements were made today by the white house with Speaker Clarke and Vice President Marshall for the joint session at that hour. The president continued at work on his address today, transcribing his notes into finished form, but the address still will be kept open until the last minute. He has asked all the cabinet members to present memoranda on possible legislation which they consider vitally necessary for the successful prosecution of the war, and it is expected the president will outline their recommendations with his own, rather fully.

At internal conferences among congressmen today the probable legislative program was discussed. The usual appropriation bills, some already in process of formation; fiscal legislation, including new bond authorizations and revenue measures, and transportation and other problems are regarded constituting the new work expected to continue for many months.

Prohibition and woman suffrage constitutional amendments will be pressed early in the session.

Taxation legislation, it is expected, will be deferred for several months.

FOOTBALL EXACTS TOLL OF TWELVE

Chicago, Dec. 1.—Football exacted a toll of twelve victims during the 1917 season which ended with the giving day games according to reports to the Associated Press today. The number was six less than 1916 and four less than two years ago. In 1914, there were 18 deaths.

FARMER HELD INSANE

Well Known Resident of Mercer County Goes to Jamestown

Paulah, N. D., Dec. 1.—Jacob Well, a well known farmer living near Paulah, has been declared insane and committed to the state hospital at Jamestown.

SCANDINAVIA TO BE NEUTRAL KINGS AGREE

Monarchs of Norway, Denmark
and Sweden Arrive at Com-
plete Understanding

EXPRESS CORDIAL RELA- TIONS BETWEEN COUNTRIES

Reach Plan to Assist Each Other
With Merchandise During
Period of War

Christiania, Friday, Nov. 30.—The kings of Norway, Denmark and Sweden, at their conference here, says an official dispatch, reached an agreement on the following points:

First. By reason of the harmony existing among the three countries, however long the war may last, and whatever form it may take, the cordial relations and mutual confidence of the three kingdoms shall be maintained.

Second. In conformity with the previous declarations and policies of the three countries, it is the full intention of their governments, each for itself, to observe the utmost degree of neutrality toward all belligerent powers.

Third. The desire is expressed reciprocally to aid one another with merchandise during the present difficulties and special representatives are to meet immediately to facilitate the exchange of merchandise.

At the meeting there was a discussion in reference to legislation dealing with the relations of foreigners and Scandinavian subjects. An agreement also was reached regarding the continuation of preparatory measures toward safeguarding the common interests of neutrals during and after the war. The desirability of cooperation between the three countries was expressed as at previous conferences.

HOMESTEADER KILLED BY COAL GAS IN LONE SHACK NEAR ROSEGLEN

Body Found After Life had Been
Extinct Two Days—Had Made
Effort to Save Self

Roseglen, N. D., Dec. 1.—The body of Ludwig Eideness, aged 38, was found on the floor of his homestead shack a mile north of Roseglen by a neighbor. Life evidently had been extinct at least two days, and indications were that death was due to asphyxiation from coal gas. It was apparent that he had become aroused sufficiently to make an effort to reach the open, as his body was found within a few feet of the door.

BALDWIN FARMERS' UNION TODAY NAMES MEN FOR CONVENTION

Delegates to State and County
Annual Meetings Being Sel-
ected This Afternoon

Baldwin, N. D., Dec. 1.—Baldwin Union No. 12, Farmers' Educational and Co-operative union, is holding its annual meeting this afternoon. In addition to the election of officers there will be named delegates to the state convention, Dec. 12, and the Burleigh county convention, Dec. 14, both to be held in Bismarck, state center for this rapidly growing organization.

RETURNS TO MICHIGAN

Wolverine Quits Mercer County
with Fortune in Pocket

Golden Valley, N. D., Dec. 1.—H. L. Van Laneschoten, for a number of years actively engaged in farming here, and connected during its short life with the North Dakota immigration commission, has disposed of his holdings in this county for \$25,000 and has returned to his old home at Ionia, Mich.

NEW HEERON LAWYER

L. A. Nimmo of Youngstown, O.
Joins Halpern Staff

Hebron, N. D., Dec. 1.—L. A. Nimmo, a young attorney from Youngstown, O., has become associated in the law practice of S. P. Halpern and has established a permanent residence in Hebron.

GERMAN DRIVE AGAINST WEDGE BEFORE CAMBRAI

Hurl Troops Against General
Byng's Forces in Effort to
Straighten Line

TEUTONS GAIN SLIGHTLY ALONG SOUTHERN FLANK

Allied Supreme Council Begins its
Sessions in Versailles—
House Attends
TO EXACT INDEMNITY.

London, Dec. 1.—The Saxon finance minister, during the budget debate in the Saxon diet, according to a dispatch to the Times from Amsterdam, said that Germany must demand a large indemnity without bothering which of her adversaries should pay it, adding: "Let them only think of America."

BY ASSOCIATED PRESS.

German troops are making a strong effort to wipe out the salient which the British drove through the Hindenburg line toward Cambrai. Violent attacks have been hurled against British lines from Moeuvres to Gonnelleu, a front of about eighteen miles, but except near Gonnelleu the Germans have been repulsed with heavy losses.

Crown Prince Rupprecht evidently proposed to make amends with the apparent plan of driving north and south and cutting off the British east of a line from Moeuvres to Gonnelleu. On the northern flank and west of Cambrai, the German attack was crushed by artillery and machine gun fire and heavy losses were inflicted.

The stroke on the southern flank brought initial gains, the British being driven back to La Vaquequerie and Gouzeaucourt, about one and three-quarters miles northwest and west-southwest of Gonnelleu respectively.

In counter attacks, the British regained La Vaquequerie and Gouzeaucourt and drove the enemy from the ridge east of there.

There has been little fighting on the other fronts. The violent fighting on the Italian front has stopped for a moment. The Germans are reported to be building defenses on the eastern bank of the Tagliamento river, 25 miles east of the Piave.

Begins Sessions Today.

The allied supreme war council began its sessions today at Versailles. In attendance will be Premier Lloyd George, Clemenceau, Orlando, and C. House, and General Wilson, Foch, Cadorna and Bliss. The other inter-allied conference delegates continue their conferences in Paris, doing their work through committees meeting in secret sessions. M. Maklakov, the Russian ambassador to France, who sits in the conference as an unofficial observer, has been dismissed by the Bolshevik government for taking part in the meeting.

Repudiates Letters.

Spokesmen for the British government deny that the letter written by the Marquis of Lansdowne expressed the views of members of the British cabinet. Lord Lansdowne says that the letter was entirely his own. He declines to discuss its opportuneness, saying he has nothing to add or retract and that the subject is too controversial. The Unionist party has condemned the letter.

Elections in Petrograd of delegates to the Constituent assembly resulted favorably to the Bolsheviks, who gained more seats than the constitutional democrats. Siberia is reported to be about to declare its independence. Ministers are meeting at Omsk and a Siberian flag has been raised.

Violent Attack.

Paris, Dec. 1.—The Germans made a violent attack last night on the Verdun front, the war office reports. Two efforts were defeated by the French, who after a severe engagement, held their line intact.

FEDERAL AGENTS HERE TO STUDY FUEL SUPPLY

Davis P. Smelser, examiner, and G. O. Russell, agent, federal trade commission, are conferring today with Capt. P. Baker, fuel administrator for North Dakota.

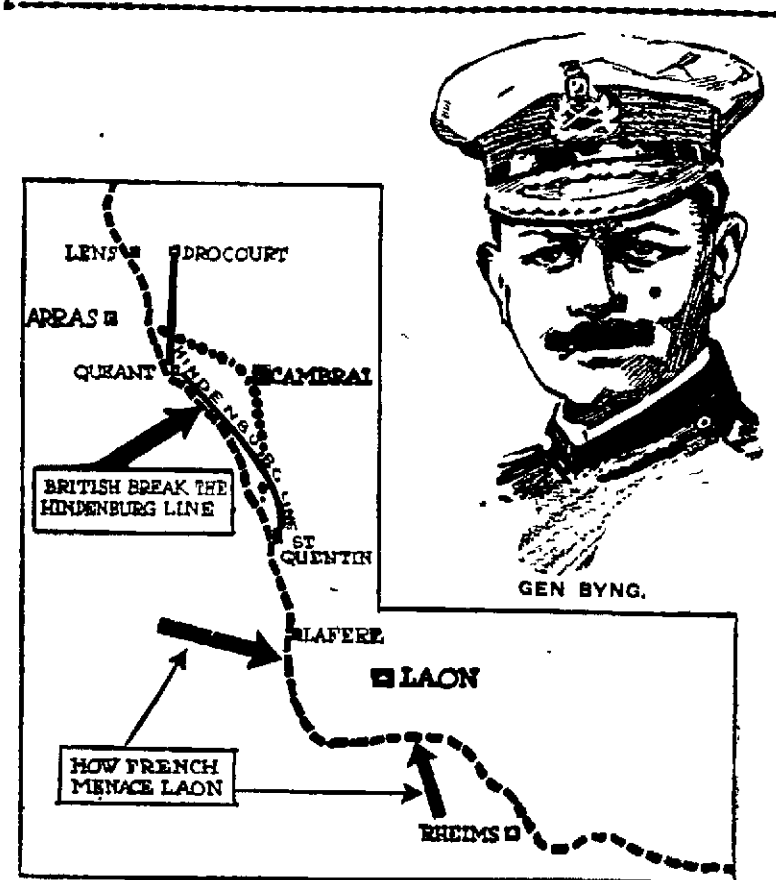

Mr. Baker has taken hold of the fuel problems in North Dakota in an energetic manner. There is still much work ahead of the administrator. Mr. Russell has been assigned North Dakota among other states to assist Capt. Baker.

MINNESOTA MAN

KILLED IN ACTION

Ottawa, Dec. 1.—The following name appears among the Americans in today's Canadian casualty list.
J. L. Baker, Minn., killed in action.

WIDE GERMAN RETREAT MAY BE FORCED

Two vital German bases are menaced by the British victory in smashing the Hindenburg line and the new encircling drive of the French against Laon, which began when the British were striking at Cambrai.

Cambrai is a vital railway center for the whole German line. Five big railways converge there. Laon is the southern pivot of the German line. Loss of these two bases would compel the Germans to retreat on the entire line.

The long dash line shows the allied positions before the British smash. The solid black line from Droocourt through Armentières to St. Quentin is the "unbreakable" Hindenburg line, and the dotted line shows where the British smashed through.

Lieut. Gen. Sir Julian Hedworth Byng, hero of the hour in Great Britain, is 53 years old. He was the seventh son of the second Earl of Stafford and entered the British military service when he was 21, joining the Tenth Royal Hussars.

Byng was in command of the British

GEN BYNG.

Byng was made a major general in 1907 and his high qualities of leadership, displayed during this war, won him the Lieutenant generalship he now holds.

His wife, Mrs. Marie Evelyn Byng, is author of two well known books, "Barriers" and "Anne of the Marshland."

Byng succeeded General Henry Allenby in command of the British Third army, when Allenby was sent to Egypt last June.

He was in command of the Canadian corps up to the time he went to the Third army. He was put in command of the Canadians in May, 1916, after his return from the Dardanelles, where he commanded the Ninth corps in the later stages of that ill-fated campaign.

The Canadians were still under Byng when they captured Vimy Ridge last spring.

BRITISH LOSE SOME GROUND IN CAMBRAI ZONE

Quick Maneuver on Part of Hind-
enburg Causes Allies Some
Discomfort

FEW SCATTERED TROOPS ARE TAKEN BY ENEMY

Fighting is Continuing with En-
tente in Fierce Counter
Attacks

CLAIM VICTORY.
Berlin, Dec. 1.—The Germans yesterday captured 4,000 British and several batteries in the Cambrai region, the war office announces.

British Headquarters in France, Dec. 1.—In their operations in the Cambrai region yesterday, the Germans began a turning movement, but the British were able to pull back most of their troops and guns at the first attack, and save them from being caught. The British blew up a certain number of guns.

So far as could be ascertained this morning, no British guns were captured by the Germans.

The German casualties yesterday were exceedingly large. The British probably lost a considerable number of men.

An Uncomfortable Hour.
There is no concealing the fact that the enemy gave the British an uncomfortable hour or two yesterday, but the situation is not one to cause particular uneasiness.

Some scattered British in the front line may have fallen into the hands of the Germans, but most of the troops are reported to have been withdrawn safely. Some ground has been lost, but unless unforeseen events arise, the German planes have been frustrated with their inflicting of serious losses on them.

Fighting is still proceeding today. The British are continuing their counter attacks.

TROTZKY DISMISSES AMBASSADOR TO FRANCE

Petrograd, Nov. 30.—M. Maklakov, the Russian ambassador to France, has been declared dismissed from his post by Leon Trotzky, the Bolshevik commissary for foreign affairs. This action was taken because of the ambassador's participation in the inter-allied conference, which is considered a state offense, entailing a heavy penalty.

Ambassador Maklakov, who was appointed by the Kerensky government, arrived in Paris on Nov. 7, but up to this time has not presented his letters to the French government, as he has been waiting to see what happens in Russia. He sits in the inter-allied conference by special invitation and as an unofficial observer.

M. Maklakov, in interviews during the last month, has expressed his opposition to the Bolsheviks. On Nov. 26 he predicted the fall of the Maximists within a short time.

KILLED WIFE, NOW SEEKS PARDON FROM TEN YEAR SENTENCE

Penitentiary Inmate Fired Shot
Into Barrel where Helpmeet
Was Hiding

Minot, N. D., Dec. 1.—John Steff, who fired into a barrel in which his wife had taken refuge, killing her and then claimed at his trial that he didn't know the barrel was occupied, is seeking a pardon. He is serving a ten years' sentence at the state penitentiary.

BALL FOR RED CROSS

Firemen of Garrison to Donate
Funds to Good Cause

Garrison, N. D., Dec. 1.—The annual ball of the Garrison fire department will be given a week from tonight, and the proceeds will be contributed to the McLean county Red Cross chapter.

Bullet Holes Still There.
The old Buckhorn Tavern in Lexington has much the appearance it had when it was the rallying place of the Minute Men and the "shot heard round the world" was fired many years ago. One may to this day see in it bullet holes made by the British soldiers who were fired upon from this tavern.

DEADLY TRIANGLE AGREES ON SCHEME OF ORGANIZED RULE FOR THE RUSSIAN REPUBLIC

Maximalists, Social Revolutionaries and Internationalists
Join in Plan

PEOPLE'S COUNCIL OF
ALL SAVE THE CLASSES

Workingmen, Soldiers, Peasants
and Trades and Railway Unions
Partake

Petrograd, Friday, Dec. 1.—The Maximalists, with the social revolutionaries of the left and the Maximalist internationalists, have arrived at an agreement concerning the organization of the governing powers of Russia. A people's council is being formed consisting of 100 representatives of the central legislative committee of the workmen and soldiers' delegates, 100 representatives of the peasants, deputies, eleven representatives of the army and navy, 55 representatives of the trades unions and 15 representatives of the railway union.

Leon Trotsky, the Bolshevik foreign minister, speaking at the Smolny Institute today, said the fact that the German Emperor has been compelled to receive representatives of Commander in Chief Krylenko and negotiate with them showed that the Russian revolution had placed its feet on all the property classes of Europe.

SIBERIA SEEKS INDEPENDENCE
London, Nov. 30.—A dispatch from Petrograd to the Daily Mail says that as a result of the elections to the constituent assembly in Petrograd the Leninists will be supported by a large majority. The dispatches say that Siberia is about to declare its independence. Ministers already have been appointed and are holding sessions at Omsk.

DANGER OF REACTION
Washington, Dec. 1.—Realization of the danger of causing a reaction in Russia favorable to the central powers by intervention in the political affairs of the new democracy, has caused administration officials here to sound a note of warning against hasty condemnation of the Bolsheviks.

Back of what is tolerated as a tolerant policy in dealing with Russia apparently not only is a purpose to demonstrate faith in the ultimate stabilization of the democracy, but a hope that the extremist faction which is for the moment in control of the seat of government at Petrograd, will refrain from violating Russia's treaty pledges to the entente allies and make a separate peace. So long as there is a possibility that these overtures will fail because of the apparently irreconcilable differences between the Bolshevik peace scheme founded on "no annexations and no indemnities" and the German demands for compensation and "adequate safeguards for the future," it is regarded as bad policy to exert any pressure from the outside at this stage. To do so, it is believed, would only tend to cause resentment in Russia and to solidify the various elements around the Petrograd regime.

Watchful Attitude
An additional reason for maintaining an attitude of watchfulness and reserve is found in the fact that to make just such a situation as is developing in Russia is one of the purposes of the inter-allied conference assembled in Paris. There are intimations that suggestions have reached Washington from the French capital that it would be well to avoid adverse criticism of the Russian tangle leaving the commissioners in Paris to deal with it at this stage at least. It is even possible that in pursuance of the idea that by moral suasion Russia can be prevented from going to the extreme of making a separate peace, some of the entente powers may decide to make some sort of acknowledgment of the receipt of Lenin-Trotsky peace and armistice proposal.

No Surprise by Germans
No surprise is felt at the speedy acceptance by Germany and Austria of the Lenin proposals. It had been assumed that with no intention whatever of accepting any of the substantial demands of the Bolsheviks, the German and Austrian chancelleries would not miss this great opportunity to eliminate Russia as an offensive military force for the many days, weeks, or even months during which the skilled German diplomats might protract the negotiations for an armistice and peace. In the meantime, of course, there may be released for active service against the British, French and the Italians on the west front, hundreds of thousands of German, Austrian, Turkish and Bulgarian soldiers maintained on the eastern front.

For Neutralizing Scheme
It will be for the conference in Paris to devise means of neutralizing this German scheme, possibly by influencing the Bolshevik element through an exposition of the duplicity and real aims of the Germans or by recourse to the elements in Russia represented by General Kaledines and other leaders who have refused to acknowledge the control of the Maximalists.

The letter of Lord Lansdowne suggesting a moderation of allied war aims, which has aroused such bitter feeling in England, may in the opinion of some of the diplomatic officials here, prove a powerful factor in keeping the Bolsheviks within the inter-allied circle by letting them perceive that their own doctrines regarding peace are not lacking of support among entente statesmen.

TIRED OF GERMAN RULE
Boston, Mass., Dec. 1.—The Turks are heartily tired of German rule and a declaration of war by the United States against Turkey now would be

against them in any conditions hereafter?

Got to 'Show' Germany
"No, gentlemen, it is horrible to think of but it is true. In my judgment we have got to show the German nation in the only way they can be made to realize that war does not pay; that this military machine cannot get the desired results. It is only by decisive military results that the war can be ended. Let the Germans realize that we can go no longer than they, and the change of feeling in Germany of which we hear so much will grow daily and will itself, perhaps, bring the results we all long to see."

Bonar Law indicated that should the Marquis of Lansdowne's letter stimulate the pacifist movement to the point of the government losing support for needful war measures, there would be only one alternative for the government. He declared that a peace of this basis would really be a defeat for Great Britain.

"Does anyone really believe that unity in the British empire could continue the same after such a defeat?" the chancellor asked in conclusion.

**DISTRIBUTION OF
BREAD CONCERN OF
FRENCH CABINET**

Paris, Dec. 1.—The cabinet today approved of the measures of Victor Doré, minister of provisions, regulating the distribution of bread. Censor restrictions have become necessary because of insufficient harvests and the limitations of tonnage for importations.

**HOUSTON MUTINY VERDICT
READY FOR DELIVERY BUT
IS WITHHELD FOR REVIEW**

Sixty-three Defendant Negroes
Marched to Chapel at Fort
Sam Houston

**TWO STAGES OF RED TAPE
BEFORE RESULT IS GIVEN**

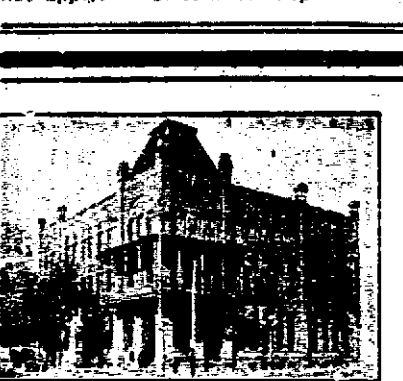

San Antonio, Tex., Dec. 1.—A verdict has been reached in the court martial of the 63 negroes of the Twenty-fourth infantry, charged with murder, mutiny and rioting, as a result of the uprising at Houston, August 23 last. The verdict will be reviewed before being made public.

That a verdict had been reached was made known late today when the sixty-three defendant negroes were brought to the post chapel at Fort Sam Houston, where the trial was held. This compliance with military rules was the only evidence of the verdict. The negroes were taken back to the cavalry guard house.

Col. Geo. Dunn, advocate general of the southern department, will now review the findings of the court martial. After that they will go general J. W. Ruckman, commander of the department. If either disapproves they may be returned to the court for further consideration, but they may not be changed. Penalties, if any, may be mitigated by General Ruckman, but may not be increased.

Get your lunch at Patterson's cafe. Lunch with your business associates.

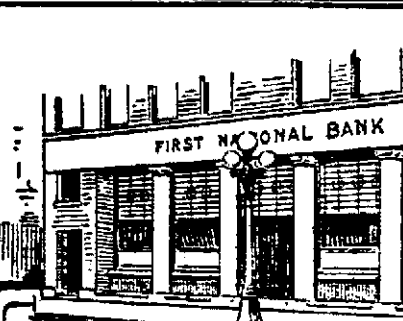

WANTED, AT ONCE

Sheep Give Aid to Red Cross Work

Arka, N. D., Dec. 1.—The untamable spirit of women of Pembina county was evidenced here today when the local Red Cross chapter exhausted the yarn for knitting.

"Shear a sheep for the Red Cross" was the word which was sent out over the country's de and each farmer sheared a sheep and now has a plentiful supply of yarn at the Red Cross headquarters for the winter's knitting.

**MERIT SYSTEM APPLIED
OF SELECTION OF NEW
OFFICERS OF THE NAVY**

Rear Admirals, Captains and
Commanders to Meet the War
Situation

**GENERAL READJUSTMENT
FROM ENSIGN UPWARD**

Washington, Dec. 1.—Four new rear admirals, twenty-one captains and fifty-one commanders of the navy will be named under the merit system by the selection board, which will hold its first meeting Monday to fill vacancies created by the expansion for war of the naval establishment. At the same time 110 lieutenants and 247 junior lieutenants will be advanced a grade under the seniority system for the duration of the war, and the grade of ensign will be readjusted to accommodate the 422 warrant and reserve officers holding temporary war commissions in that grade.

The board is composed of nine rear admirals.

BAD BREATH

**Dr. Edwards' Olive Tablets Get
at the Cause and Remove It**

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively on the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of purgative, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowels and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

**All Who Enroll At The
Bismarck Business College**
now can do so under guarantee of a satisfactory position or tuition fees refunded. Later we may not be able to enroll students under this inducement.

**HISTORY OF I. W. W.
PLAYS IMPORTANT
PART IN HEARING**

Chicago, Ill., Dec. 1.—The history of the I. W. W. is to play a big part in the trial of 166 I. W. W. leaders in the federal court. The prosecution proposes to furnish the jury with a history of the I. W. W. movement as well as specific evidence of the conspiracy with which the defendants are charged.

So far as Frank K. Nebeker, special counsel for the government, has been able to determine, he declared there are at present 200,000 active members of the organization in the United States.

**BISMARCK TEACHERS
MUST HAVE TRAINING
AND RIPE EXPERIENCE**

At a meeting of the board of education Friday night a resolution governing the hiring of teachers for the grades and high schools was read and adopted. Bismarck teachers for next year will have to come well qualified. The resolution follows:

"The qualifications aside from the usual qualification of character, certificates, etc., of teachers hereafter employed to teach regularly in the grades shall be graduated from a state normal and have and have two years' experience in a school other than normal training school in which at least four teachers are employed."

Further: That qualifications of high school teachers be graduation from a college or university with a bachelor degree and two years' experience in a high school giving a four-year course.

Miss Emerita Yegen, in charge of the night school, was appointed trustee officer and will begin her duties at once.

**Pro-German
Teacher Is
Discharged**

**EDUCATOR DENIES THAT
SHE PREACHED SEDITION**

Grand Forks, N. D., Dec. 1.—The Grand Forks board of education has requested the resignation of Miss Edith Hoppe, teacher of German and French in the high school here, on the ground that she has demonstrated pro-German sympathies. Miss Hoppe when before the board denied that she had talked pro-Germanism in her classes.

Strength of Spanish Fly.
Spanish fly is an insect much used in medicine as an irritant. It is gathered from the lilac bushes of southern Europe at night by shaking the branches, the collector's hands and face being protected by veils and gloves against the volatile acid discharge of the beetles. Then the insects are killed by immersion in hot vinegar. One one-hundredth (1-100) of a grain of Spanish fly placed on the lip rapidly causes a blister.—W. E. Aughlinbaugh in Leslie's.

Saving the Eyes.
The eyes were made to use without a doubt. So were the hands and feet, and all can be abused and become sources of pain forever. A lifetime of just ordinary vision, just seeing what goes on about us, is about all we can expect from a pair of normal eyes. Added strain like fine sewing, too much reading and poor light will use them up so much sooner. Wage-earners have to sacrifice many things, including eyes, but for absolute waste of vision there is no excuse.

Would Connect Seas.

A new project of American engineers is a giant canal 250 miles long to connect the Arctic ocean and the Baltic sea, extending from Kandalaska, on the White sea, to Tornen, near the Swedish frontier on the Gulf of Finland. The cost is estimated at \$150,000,000.

**MOTT NEWSPAPER
CONSOLIDATED TO
PROMOTE HARMONY**

Mott, N. D., Dec. 1.—Mott found cause for real Thanksgiving in an announcement published Thanksgiving day of the consolidation of the Mott Pioneer Press and the Mott Spotlight, under the Pioneer Press Co., whose directors are R. E. Trousdale, George Holm and F. G. Orr, substantial Mott business men. The Pioneer Press Co. capitalized for \$15,000 was issued a charter by Secretary of State Hall on Friday. The Pioneer Press under Elmer Enge and the Spotlight, under

Jack Charnley, for years had waged an unceasing warfare which Mott citizens generally recognized as injurious to their town. Both have been excellent weekly newspapers, and except for their factional tinge have left little to be desired.

Under the new management, Charnley's paper will be discontinued, and its circulation lists will be merged with those of the Pioneer Press, which, beginning today, will have the field to itself. In announcing the change, Messrs. Trousdale, Holm and Orr say:

"This consolidation has been made in an endeavor to secure closer cooperation and unity of the interests of the community, and practically every business man in Mott is a stockholder in the new corporation. The consolidated organization will endeavor to build up the interest of the community and every individual in it in every possible way. It is hoped that every one will cooperate to that end."

**CONSERVE THE NATION'S
FOOD**

ORGANIZED EFFORT WILL SAVE FOOD

By P. G. HOLDEN.

WOMEN from the foreign settlements daily gather what food they can from the barrels of decaying produce waiting for the garbage wagons in the wholesale produce district of Chicago.

Scores of women and children gather in the alleys at the rear of the commission houses every afternoon and find considerable fruit and vegetables only slightly damaged.

But their search is made so hastily that they find only a small portion of the produce that might be saved.

The work of the Woman's Committee of the Council of National Defense,

in the City of New York should be duplicated in every important city in the United States.

The Committee learned that boat loads of slightly damaged fruits and vegetables were being burned or dumped into the sea. They secured the permission of the Board of Health to save this food, and every day women sort the produce. They sell much of what they save at low prices—the rest they can. One week they saved 17 barrels of potatoes. Often they find entire crates of which only about 20 per cent is spoiled.

There is no good reason why slightly damaged produce should be wasted in any city.

Fifteen Thousand Words in Hypothetical Question Put To Mrs De Saulles' Experts

Prosecutor Counters With Another Interrogatory of Even Greater Length

X-RAY SHARPS VARY AS TO SKULL LESION

Dr. Smith Ely Jelliffe Swears Point Blank Chilean Woman is Mentally Off

Minneapolis, N. Y., Dec. 1.—Another mass of expert testimony was added today to the volume of evidence already introduced in support of Mrs. Blanche De Saulles' claim that she did not know what she was doing when she shot her divorced husband, John L. De Saulles, in his Long Island home the night of August 3. The defense rested at 2:30 o'clock in the afternoon. Because District Attorney Charles R. Weeks did not like the phrasing of a 15,000 word hypothetical question put to alienists by attorneys for the defense, he is tonight preparing a similar interrogation, of equal or greater length, which experts on diseases of the mind called by the prosecution will be asked to answer tomorrow.

Question Too Favorable
Weeks insisted the question submitted by the defense was based entirely on testimony favorable to Mrs. De Saulles, ignoring all together statements made by witnesses on which he is depending in large part to convict the young Chilean woman.

Justice David F. Manning instructed the district attorney to frame another query including the testimony he deems most favorable to his side of the case.

It required an hour and a half to read the question prepared by Mrs. De Saulles' attorney, Henry A. Utterhart. Discussion of its points occupied an additional two hours.

When attorneys for the defense rested their case, Weeks began an attack on the validity of their claim that Mrs. De Saulles suffered a ten day relapse of memory which began a few moments prior to the time she fired the revolver shots and ending when she awoke as a prisoner in jail on August 13.

Fracture "Baby Spot."

Through Roentgen ray photographs, Weeks sought to show that the depression of a part of one of Mrs. De Saulles' skull bones was merely the area commonly known as the "baby spot" and that it did not mark a fracture, as maintained by the defense. Attorney Utterhart declared his client suffered a fractured skull in an accident when a child, was left a bit of bone pressing upon the frontal lobes of the brain. That this pressure was a factor in bringing about an alleged lapse of responsibility is one of the bulwarks of the defendant's case.

Not Mentally Sound
By answering in the negative each of the three parts of Utterhart's hypothetical question, Dr. Smith Ely Jelliffe, a widely known alienist, and Dr. J. Sherman Wright, who has attended Mrs. De Saulles since her arrest, swore it was their belief the defend-

BLOOD POISONING

Hamm's Wizard Oil a Safe First Aid Treatment

How often lockjaw and blood poisoning result from the neglect of a slight scratch or little cut! Hamm's Wizard Oil is a safe and effective first aid treatment. It is a powerful antiseptic and should be applied immediately to wounds of this kind to prevent danger of infection.

It is soothing and healing and quickly drives out pain and inflammation in cases of sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for stiff neck, sore feet, cold sores, canker sores, earache and toothache.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Oil. Whip, pleasant little pink pills, 30 cents. Guaranteed.

NEW CAMPAIGN FOR 5 BILLION WAITS CONGRESS

Drives in February and June of Next Year to Augment the War Chest

TAXES OR BONDS THE ISSUE AT CAPITOL

Continuance of Loans to Allies Another Big Question for New Session

Washington, Dec. 1.—Congress will have to authorize early in the session means of collecting from the American people between now and July 1 about five billion dollars in addition to the \$3,666,000,000 from liberty bonds already authorized by the to be issued, the billion dollars or less expected from war savings campaign and about three billion dollars from war taxes.

Most congressional leaders believe the five billion dollar balance must be provided principally by issue of bonds, and Secretary McAdoo has told members of congress that he favors this method. Chairman Kitchin of the house ways and means committee will take up the question immediately and the committee within a week or two is expected to frame a new bond measure. If this plan is finally adopted, the country probably will be called on to absorb the two more big liberty bond issues between Feb. 1 and July 1, aggregating more than \$8,500,000,000.

Loans to Allies

Another big finance question is the continuance of loans to the allies. If the present rate of extending credits to the allies is continued, the seven billion dollars authorized credits will be exhausted by July 1, and congress will have to decide whether to continue the loans after that time. Six billion dollars will be required for the fiscal year beginning next July, if the rate of a half million dollars a month is kept up.

Wide difference of opinion exists in congress whether the bulk of the five billion dollars should be raised by taxation or bond issues, but those advocating the issue of securities expect strong support from the administration. They argue that the internal revenue bureau already is overburdened with the immense task of creating machinery for collection of the \$3,400,000,000 war revenue expected before July 1, and that great confusion would result from imposition of new taxes before opportunity has been given for the existing levies to adjust themselves to the economic situation.

Fares on Business

Taxation advocates are expected to make a fight for establishment of new taxes on certain business lines, and for increase of income and excess profits rates. Under the present law, the estimated receipts from incomes is \$1,200,000,000 and from excess profits \$1,220,000,000.

Treasury officials and congressional leaders in charge of the finance program have no means of knowing at this time what success war savings plan will meet, but most of them figure on receiving between \$600,000,000 and \$1,000,000,000 of the authorized two billion dollar total before July 1.

TREASURY CERTIFICATES

Washington, Dec. 1.—The latest issue of treasury certificates of indebtedness, due next June 25 and receivable in payment of income and excess profits taxes was closed tonight by secretary McAdoo when subscriptions had reached about \$690,000,000.

The entire amount has been subscribed within the last nine days, since the issue was announced, and books were closed because ample funds now are provided to redeem the \$250,000,000 certificates due today and other cash requirements of the treasury in the immediate future. No definite limit was placed on the issue when it was announced.

KEEPING THE QUALITY UP.

LAXATIVE BROMO QUININE, the World Famous Cure for Colds and Grip, is now 3c per box. On account of the advance in the price of the six different Medicinal Concentrated Extracts and Chemicals contained in LAXATIVE BROMO QUININE, it was necessary to increase the price to the Drugist. It has stood the test for a Quarter of a Century. It is used by every Civilized Nation.

REO

These Units Are All Reo Designed and Reo Made

AND BEING REO MADE they are of that old fashioned quality that you have learned to expect from we Reo Folk.

HAVE YOU EVER WONDERED why it seemed no longer possible to procure the quality of furniture, of silver-ware, of—well of anything—that was the fashion twenty-five years ago.

IT WAS THE FASHION then to make everything just as good as skilled artisans knew how.

BUT NOWADAYS the vogue is for varnish and veneer to cover up the defects; to use substitutes in place of the real—shoddy instead of the genuine.

WE WONDER sometimes how this came to be—for the Reo success, one of the most substantial in this industry—proves that it still pays to make things the Good Old Way.

TO LAST A LIFETIME—that was the idea and the ambition of the maker and the seller of those days.

WHY ISN'T THAT a good plan still?

WELL IT IS—as the over demand the Reo product has enjoyed from the very first amply proves.

OF COURSE WE CANNOT make as many that way as we could if we were satisfied to accept units made in other plants.

THEY MIGHT BE JUST AS GOOD as we Reo Folk can make them. We don't know.

AND THERE'S THE POINT—we don't know—couldn't know.

ONLY WAY WE CAN KNOW is by analyzing every batch of steel; testing every part that goes into a Reo. Only then can we give the Reo word as to the quality and back it with the Reo guarantee.

AS WE'VE SAID, we couldn't make as many as some and make every important unit in the Reo plants. Beyond a certain very definite point—quantity production is incompatible with quality.

BUT THEN WE NEVER HAVE been ambitious to make all the automobiles—only the best.

THE REO POLICY has been, from the first, to make only as many Reos as we could and make every Reo good.

REO OWNERS tell their friends and acquaintances of its wonderfully consistent performance; of its remarkable freedom from troubles of any kind; and they clinch the argument by figures showing the astoundingly low cost of upkeep of this big luxurious Six.

PRESENT PRICES hold only till January 1st. Only orders for delivery prior to that date will be filled at present prices. So there isn't a minute to lose. Order—now.

"THE GOLD STANDARD OF VALUES"

Guardsmen Equipped with Shrapnel Helmets Adjust Themselves to New Gear

(By Associated Press)
American Training Camp in France, Dec. 1.—A large number of American National Guardsmen today began actual practice with automatic rifles. Various ranges have been erected at target points, and at this the men fired all day. Some excellent shooting was done, the men showing by their perfect familiarity with the operation of the rifles the value of the instruction to their mechanism which they have received at the schools during the last few weeks.

Some of the newly arrived units from the eastern and western states

were introduced to the shrapnel helmet. They are being hiked over great distances in order that they get used to the weight and practice of this headgear. In many cases the instruction of companies is being carried out by non-commissioned officers, the commissioned officers having been sent to various schools and also along the lines of communication.

The national guardsmen are showing especial interest in the tanks. Many men in at least one contingent have applied for tank duty and it is probable that many of them will be transferred to the tanks section at the proper time.

SENSATIONAL FALL IS PICTURE CLIMAX

Glorious scenery marks Harold Lockwood's Metro-York production, "The Hidden Spring," to be shown at the Orpheum theater tonight. This feature photodrama has been pictured by Fred J. Balshofer from the novel of the same name by Clarence B. Keland, and depicts life in and near an Arizona mining camp.

In one scene Mr. Lockwood, as Donald Keeth, a young lawyer attempts to save a lumberman who plunges down a rocky cascade. In so doing he loses his own footing, and is swept after him by the angry current. Together the men struggle in the foam at the foot of the waterfall, and then Mr. Lockwood as Keeth aids the smaller, weaker man to a place of safety. Incidentally, this episode furnishes the material for the climax of the play; since Dave, the lumberman, holds the secret that Keeth needs to know in his fight against graft and corruption, and in gratitude for his rescue Dave tells the truth.

Lockwood pictures are noted for the beauty of their photography and outdoor scenes. Antonio Gaudio is the cameraman in "The Hidden Spring," as in other recent Metro-York productions, and the virility and bravery of the star himself must receive credit for the vigor and dash of this and other productions.

A two-reel Mack Sennett Keystone comedy will complete the program. Everyone knows the kind of comedies Keystone turns out—nothing but the world's best. Go early if you wish a seat tonight.

ORRIS W. ROBERTS, Meteorologist.

IT CARRIES ALONG. "There is no more potent force than song in developing unity in an army," declares an American army officer with the forces in France.

The potency is there, also, whenever a multitude of any sort, on any occasion, is confronted by a crisis. The "Marseillaise" arouses and unites a distracted nation. "Nearer My God to Thee" as the great ship sinks, with hundreds of passengers at last bound together as brothers and sisters by a common fate. "The Star Spangled Banner" causes a whole nation to rise to it when the tuning-fork of Fate sounds national peril!

The song of the multitudes is the honest expression of inspiration and spirit. Regardless of words and harmonies, it is the torrent of a mighty purpose. In it are the tingling nerves of the agent, the fearless ardor of youth, the hot determination of the middle aged. In it the blind, the weak, the despairing may be giants. It is rhythm making warriors of human mixture. In it a common brotherhood, with no excuses asked for deficiencies or inability. It is a tonic for the arming of truth and justice. It is the challenge of the masses to wrong. It blinds and moves.

The glorious vision seen, the multitude roars in song, united in song. To open battle with a song was no unusual thing with the nations of old. We may yet see our boys crossing, bloody No Man's Land with a song that will hold them together and make them still the more "our boys."

PART WAY, OR ALL THE WAY IN? When congress meets, it is likely to be all stirred up over giving Uncle Sam a more decent, if not, indeed, a more honorable standing in the great war.

We are not at war with Austria, Turkey or Bulgaria. We are providing money and munitions for the killing off of Austrians, Turks and Bulgarians. No soldier of these nations would hesitate to kill an American soldier. Should American soldiers come face to face with Austrian, Turkish or Bulgarian forces there would be a fight, without any preliminary investigation into the diplomatic or formal relations of the countries.

In short, we are in the equivocal, if not shameful, position of killing people with whom we are at peace, and it has somewhat of the aspect of bloody brigandage.

Very likely, we lose much by it. too. Declarations of war upon these three nations would undoubtedly have effect upon their morale as allies of Germany. Besides, how can we sit at a peace table, with world-wide democracy our honest purpose, and help fix the destinies of people whom we merely stand in the back with our money and munitions? How can we morally claim that this is an issue between civilization and barbarism, when our national attitude is that of peace with the barbarians?

professional barbarians as the Turks and Bulgarians? In respect of these three nations, we are a neutral doing all we can save shooting to put them out of business. It hasn't got a German look.

THE STRIKING FEATURE. The striking feature about General Pershing's drive is that it was a surprise to the Germans as claimed by the British and admitted by the Germans themselves. A sector of some 10 miles, collected a huge force, including the use of the mighty tanks, which were the usual weapon of the German army. The artillery work, the top, including the machine gun defenses, before the British woke up. This surprise was possible because the German army was not expecting the British to use their aeroplane force. Indeed, the British were only five German miles or during the entire drive along the whole line. The British claim of surprise of the air is well founded. The British success is strong evidence that can be done. The Germans are.

Now for gunless days. Cheer up! One of our distinguished theorists springs upon your glad some holiday season a new reason why you will starve to death. It's a double-edged reason, too, for it provides that if you don't starve during the war, you surely will afterward.

Representing the United States department of agriculture, Mr. E. F. Smith has just delivered a lecture before the National Academy of Science at Pennsylvania university, in which he says that not only are the Germans organized to burn our wheat, but that every gun fired in Europe burns up a definite quantity of the rare fixed nitrogen required as the basic fertilizer for grain. Mr. Smith surely serves up the true gloom. If the Germans can burn up our crops of this year and our soldiers over there burn up the basis of our crops, we're goners. But it will not be Mr. Smith who's to blame. As an attaché of the United States department of agriculture he's distributing the gloom as thickly and widely as he can. Muzzle the guns! Save fertilizer! Of course, we might ask Mr. Smith what's doing with the millions voted for government nitrate plants, but we won't.

What this nation needs, just now, is a lot of Smiths, department heads, professional theorists and academics of science pounding around the country tarring on the real gloom. Such do almost as much good as the professional pacifists.

Judging by the way they're bucking his line, Von Hindenburg has been given the wrong steer on the Hail signal.

Some peace congress adjourned because nobody but Germans attended. There's a bright, white light on the peace movement.

The prize for optimistic patriotism is hereby handed the man who came in to call our attention to the fact that it takes no more saliva to moisten the new 5-cent stamp than the old 2-center required.

Victims of the Balkan at Camp Sherman get the months at hand. Four and a half months of his pay for carrying a sergeant, Major, Captain or a mighty private, sergeant.

"Villistas massacre Mexican band of 100," says an El Paso dispatch. Dog, some such reporting! If its 100 Mexican soldiers, it's too bad. But when Villistas overlook massacre of a Mexican band of 100, they win our contempt.

The next call to selective service may catch most of the baseball stars, fatally adding to the uncertainties of the game. 'tis feared by the sport writers. After Zimmerman's pursuit of Collins across the home plate, you can't add many more uncertainties to the game, without "cracking" it, all right. Yep, we were one of the cute ones who had the Zimmerman end, financially speaking, that day.

SUPREME COURT. FROM CASS COUNTY. Rose E. Livingston, plaintiff and appellant, vs. Daniel H. Holt, as administrator of the estate of James H. Grady, deceased, defendant and respondent.

Appeal from the judgment of the district court of Cass County. Hon. A. T. Cole, judge. Affirmed. Opinion of the court by Judge F. J. Fargis, attorney for appellant. Lawrence & Murphy, Fargis, attorneys for respondent.

Now for gunless days. Cheer up! One of our distinguished theorists springs upon your glad some holiday season a new reason why you will starve to death. It's a double-edged reason, too, for it provides that if you don't starve during the war, you surely will afterward.

Representing the United States department of agriculture, Mr. E. F. Smith has just delivered a lecture before the National Academy of Science at Pennsylvania university, in which he says that not only are the Germans organized to burn our wheat, but that every gun fired in Europe burns up a definite quantity of the rare fixed nitrogen required as the basic fertilizer for grain.

Mr. Smith surely serves up the true gloom. If the Germans can burn up our crops of this year and our soldiers over there burn up the basis of our crops, we're goners. But it will not be Mr. Smith who's to blame. As an attaché of the United States department of agriculture he's distributing the gloom as thickly and widely as he can. Muzzle the guns! Save fertilizer! Of course, we might ask Mr. Smith what's doing with the millions voted for government nitrate plants, but we won't.

What this nation needs, just now, is a lot of Smiths, department heads, professional theorists and academics of science pounding around the country tarring on the real gloom. Such do almost as much good as the professional pacifists.

Judging by the way they're bucking his line, Von Hindenburg has been given the wrong steer on the Hail signal.

Some peace congress adjourned because nobody but Germans attended. There's a bright, white light on the peace movement.

The prize for optimistic patriotism is hereby handed the man who came in to call our attention to the fact that it takes no more saliva to moisten the new 5-cent stamp than the old 2-center required.

Mandan News Bureau

T. H. LANTRY AND PARTY IN HONOLULU. While in Mandan on Tuesday morning, General Manager J. M. Rapelle advised a Tribune reporter that former Superintendent Lantry and his party of Northern Pacific men en route to Russia had arrived in Honolulu in a short time for Europe. Mr. Rapelle said that his advice was that the party had a most successful trip thus far.

FROM RAMSEY COUNTY. Union State Bank of Minneapolis, Minn., a corporation, plaintiff and appellant, vs. A. Bert Benson, defendant and respondent. Appeal from district court of Ramsey county. C. W. Lutz, Judge. Reversed. Opinion of the court by Judge J. Robinson and Grace, J. dissenting. Cowan & Adams, and H. S. Blood, Devils Lake, N. D., and T. W. Morrissey, Edmunds, N. D., attorneys for respondent. Brennan & Brennan, Devils Lake, attorneys for plaintiff and appellant.

7,000 CARS OF APPLES TO MOVE. While in Mandan on Monday P. E. Molise, chief inspector of refrigerators for the Northern Pacific Railway company, with headquarters at St. Paul, stated that there will be upwards of 7,000 carloads of apples passing through Mandan destined to points east for market soon. While the apple crop this year is not near as good in the Yakima valley as it was last year, Mr. Molise says that there is an immense quantity to be shipped. He stated that of the 15,000 carloads of apples to be shipped the Northern Pacific will get the majority to transport to market.

RAPELLE SAYS CAR SITUATION IS CRITICAL. While in Mandan en route to St. Paul from the west on an official business trip General Manager J. M. Rapelle told a Tribune representative that there has never been a time that the Northern Pacific railway was so short of cars. There are at the present time 4,000 of the Northern Pacific freight cars on other railroads. Besides the company is deprived of the use of hundreds of foreign cars that until this fall have been in daily use on the Northern Pacific.

While in Mandan on Tuesday morning, General Manager J. M. Rapelle advised a Tribune reporter that former Superintendent Lantry and his party of Northern Pacific men en route to Russia had arrived in Honolulu in a short time for Europe. Mr. Rapelle said that his advice was that the party had a most successful trip thus far.

SAFE FARMING. SAVE THE SEED CORN. By P. G. HOLDEN.

WITH much of the corn in the northern Corn Belt soft and immature, the question of seed corn for next year becomes a serious one. But do not think that because the frost has caught your corn, none of it will make good seed. Save the best and most matured ears - do not import your seed corn. If corn is just past the roasting stage, well glazed and well denting, it will make good seed if special care is taken to store in a dry place and protect it from freezing. If it shrunk and become shrivelled in drying, but its vitality will not be seriously reduced. Corn should be hung up in the attic or some upstairs room, where each ear can have a free circulation of air. It should not be placed in a pile even overnight. Circulation of air is the most important thing in drying corn, as this prevents heating and molding. Home-Grown Seed Necessary. There are very few who cannot save their own seed corn or secure it free from elsewhere. Home grown seed corn is the only safe seed corn to use. Do not forget that importing seed corn is a dangerous practice, and we must be led to believe that we can safely plant corn brought in from the South. Hundreds of experiments have shown that seed corn imported from a short distance has resulted in a decreased yield of from 10 to 40 per cent. Some cases even 50 per cent. Do not believe that corn, taken from the North to the South can be grown to be false. After one or two years of cultivation in the South corn becomes unsuited to the North. Much depends upon a large yield of corn next year. Let us be especially careful in selecting, storing and testing our seed corn. We must be sure; we cannot afford to guess.

TRIBUNE FINANCIAL DEPARTMENT. UNFAVORABLE CONCLUSION TRAINS OF EMPTY CARS TO LATE PEACE OVERTURES. READY FOR CORN BELT. Representative Rail Issues Hit Abundant Transportation Now Available and Rural Dealers 'Fed Up'. New Minimum for Decade or Upwards. EXTREME DROP IN THE WAR DIVISION. Call Money Advances to Six Per Cent—War-Tax Stamps Affix Today. CONDITIONS WHOLESOME. New York, Nov. 30.—Dun's Review tomorrow will say: "Entering on the closing month of a most remarkable year, business reflects sustained activity in many directions and underlying strength in about all its branches. What is especially important is the fact that at bottom general conditions are wholesome, and more so than a year ago, for the competitive and excited buying which was then so conspicuous a feature in certain quarters is now absent, and the great rise in prices of some leading commodities has been checked through official action, or from different causes. But while the disposition to make forward commitments with increased caution, and to provide against possible contingencies in the future, is reassuring, there are still many drawbacks in the situation, and the new and extraordinary problems which are being encountered hinder progress in the industrial field as in mercantile channels. The seriousness of the congestion in railroad transportation is evidenced by the unprecedented measures taken to relieve the pressure, and while producing facilities have been further improved and extended, with much new capacity available, manufacturing operations are frequently hampered and outputs curtailed because of the delays in obtaining fuel and other urgently needed materials, or owing to the shortage of labor."

Weekly Lank Clearings \$4,232,369, 429. New York, Nov. 30.—Coming on the eve of the interallied conference, Wall street chose to attach unfavorable conclusions today to latest peace suggestions with Russia's radical element. Itails yielded from one to almost four points, several representative issues of that group making new minimums for periods ranging from a decade to over a generation. These included Pennsylvania at 45 and Baltimore and Ohio at 43 1/2. Supplementary October railway earnings offered no ground for enthusiasm, Canadian Pacific reporting a net loss of over \$600,000, Baltimore and Ohio almost as much, and Lehigh Valley about \$150,000. Slump of 2 to 3 Points. The war division averaged extreme declines of two to three points. Similar recessions were registered by a wide variety of specialties. Buying power, or at least demand, was negligible, but moderate support affected some substantial recoveries in the latter part of the lethargic session. New York stocks sold "ex-dividend" and in several noteworthy instances these were materially caught up with United States steel, minus its regular dividends of 4 1/2 per cent, gradual by 1/2 point, closing at a net loss of 1/2 of a point. Standard rails, shippings and copers also rallied in the final hour, the market's tone at the finish being irregular rather than heavy. Sale amounted to 370,000 shares. Call Money's advance to, six per cent was ascribed to December dividend requirements. Italian exchange was again heavy, but other continental rates were scarcely altered. The Liberty Issues. Interest in the heavy bond market centered around the liberty issues with the 4 1/2 at 97 1/2 to 97 3/4 and the 5 1/2 at 98 1/2 to 98. Total sales (par value) aggregated \$1,450,000. United States Bonds (lost issues) were unchanged on call. The governing committee of the stock exchange today notified members that war tax stamps must be affixed to stock deliveries beginning tomorrow.

THE WOOL GRADE. Boston, Mass., Nov. 30.—The Commercial Bulletin will say tomorrow: "Except in a few instances, Boston wool merchants report a quiet market during the week. Values keep very firm for all grades and especially so for wools adapted to military needs. The situation at the mills has changed very little, new business being exceedingly moderate. Scoured basis. Texas, fine 12 months, \$1.68@1.72; fine eight months, \$1.55@1.60. California; northern \$1.70@1.75; middle, \$1.55@1.60; southern, \$1.45@1.50. Oregon; eastern number 1, staple, \$1.50, eastern clothing, \$1.50@1.60; Valley number 1, \$1.60@1.65; territory fine staple, \$1.80@1.85; half blood combing, \$1.75@1.80; three eights blood combing, \$1.45@1.50, fine clothing, \$1.60@1.65; fine medium clothing, \$1.55@1.60. Pulled; extra, \$1.80@1.85; A. A., \$1.70@1.80; A. supers, \$1.60@1.65.

Chicago, Nov. 30.—Trains of empty cars moving freely into the corn belt brought about lower prices today for corn. The market closed weak, half a cent down, with January 12 1/2 and May 11 1/2, to 11 3/4. Oats declined 1/2 to 1 cent net, and provisions fell 1/2 to 1.05. Car Shortage Over. Reports from stations where one or two empty cars a week has of late been the rule sent word today that an average of a dozen cars had been made available. As the cars thus supplied will not run east of Chicago, the beginning of a genuine accumulation of corn here seemed reasonably assured. In this connection, it was said, eastern demand was being filled from the record crop in Delaware, Maryland, New York and Pennsylvania. Under such conditions a little strength which unfavorable weather developed in the market at the outset gave way late in the day to decided bearish sentiment and to an accompanying material setback of values. Oats Relax. Assertions that 1,000,000 bushels of oats would be delivered tomorrow on December contracts did a good deal to relax the oats market. Moreover, betterment of the car situation attracted much notice. Holders of land attempting to unload today disclosed that provisions were without aggressive support. The result was a swift drop in prices.

CHICAGO GRAIN. Option. Open. High. Low. Close. Corn. Jan. ... 121 121 1/2 120 1/2 120 1/2. May ... 118 118 1/2 118 1/2 118 1/2. Oats. Dec. ... 72 72 1/2 71 71. May ... 69 69 1/2 69 69.

MINNEAPOLIS GRAIN. Minneapolis, Minn., Nov. 30.—Wheat receipts 539 cars, compared with 794 a year ago. Corn—No. 3, yellow, \$1.55@2.00. Oats—No. 3, white, 70c@71c. Flax—\$2.18 1/2@2.20 1/2. Flour unchanged. Shipments 89,911 barrels. Barley—\$1.10@1.15. Rye—\$1.77@1.78. Bran—\$35.00@37.00.

CATTLE MARKETS. OMAHA LIVE STOCK. Omaha, Neb., Nov. 30.—Hogs—receipts 13,600; lower; heavy, \$17.30@17.55; mixed, \$17.40@17.50; light, \$17.35@17.65; pigs, \$12.00@19.00; bulk, \$17.40@17.55. Cattle—Receipts, 6,500; steady; native steers, \$9.00@15.00; cows and heifers, \$6.50@10.50; western steers, \$8.00@13.00; Texas steers, \$7.00@10.50; cows and heifers, \$6.25@9.25; canners, \$5.25@6.25; calves and feeders, \$6.00@12.00; calves, \$9.00@12.50; bulls, stags, etc., \$3.75@5.00. Sheep—Receipts, 11,000; steady; yearlings, \$11.50@13.00; wethers, \$11.00@12.50; ewes, \$9.25@11.50; lambs, \$16.00@17.00.

ST. PAUL. HOGS—Receipts, 2,400. 3 1/2c to 3 1/2c lower. Range \$16.15@16.85; bulk, \$16.70@16.85. SOCIETY

YOUNG MINISTER ARRANGES SERIES OF FIVE SERMONS

Beginning tomorrow and continuing throughout the five Sundays of December the Rev. L. R. Call of the First Baptist church will give a series of morning sermons on the World War and a Christian Nation. The titles of the sermons are as follows:

- Dec. 2—"The Suicide of Germany"
- Dec. 9—"The World War and the Christian Faith"
- Dec. 16—"Christianity vs. Kultur"
- Dec. 23—"The Peace of God and a World Conflict"
- Dec. 30—"The Threshold of a New War-Year"

Mr. Call is a firm believer in the Church-militant and an interesting series is expected.

Conducts Conference.
The quarterly conference of the McCabe church was conducted Friday night by Rev. C. E. Vernilly. The work of the church was reviewed. Bids for the building of a guild room were opened and discussed and plans made for the adoption of one of these bids and for the raising of the funds necessary for the room. This room will fill a long-felt need and will add another splendid feature to the growing church.

BAKER'S COCOA is pure

Purity in cocoa means carefully selected, scrupulously cleaned cocoa beans, scientifically blended, skilfully roasted, and with the excess of fat removed, reduced to an extremely fine powder by a strictly mechanical process, no chemicals being used, the finished product containing no added mineral matter.

BLACK AND WHITE IN STRIKING SUIT

By BETTY BROWN.

New York.—The sharp and effective contrasts of black and white in costume designs have always been popular with women and seldom is the effectiveness better exemplified than in the costume pictured here. This is a traitor costume of white corduroy, black velvet, and black astrachan, with a satin cone hat in black to match.

The jacket of this suit is notably short and the small inner vest of velvet is sunnily colored in white silk and white beads. The coat is bordered with a band of astrachan, which also forms a deep band at the hem of the white corduroy skirt and the maff, and a grille of the astrachan confines the white crepe blouse.

pastor will talk and the church quarrel sing. Two special numbers will be given at the evening service at 8 o'clock. Mrs. M. Mosely Withers will give a reading and Mrs. R. Anderson will sing.

CITY NEWS

Birth of Daughter—A daughter was born Thanksgiving day to Mr. and Mrs. Peter Yung of this city.

Teacher Here—Miss Maud Hammond a teacher in the Linton school, is spending the week end in the city.

Licensed to Wed—A marriage license was issued Friday to Fred C. Voight and Rose Hassa, both of Bismarck.

McKenzie Visitors—Among the visitors in the city Friday from McKenzie were H. E. O'Neill and Jerry Sweeney.

Garrison Visitor—Mrs. A. D. Currier of Garrison is spending a short time in the city visiting friends and shopping.

Custodian Ill—Carl Liner, custodian at the Detention hospital, who has been seriously ill for the last few days is slowly recovering.

Chimney on Fire—The chimney of the Will seed house was on fire this morning and an alarm was sent into the fire department. A bucket brigade put the fire out and the services of the department were not needed.

M. B. A. Election—The M. B. A. will meet Monday evening in the Knights of Pythias hall and elect officers for the year. A social entertainment and refreshments will follow the business session. Meeting called at 8 o'clock and all members are asked to attend.

St. Alexius Notes—Miss Mehner, daughter of John Mehner of Mott, who has been quite ill in the St. Alexius hospital is improving. Mrs. Jacob Messmer of Glen Ullis, entered the hospital Friday for treatment. Mrs. George Coleman, who underwent an operation three weeks ago in the same hospital, was able to return to her home Friday in this city.

ROLLER SKATING AT THE ARMORY TONIGHT

We have just received a consignment of new Hanley roller skates. The rink will be open for skating parties any time, except the regular skating nights. 12-11

EVERYTHING NOT MERRY IN LEAGUE CAPITOL CIRCLES

Organization Finding that Administration of State Affairs is Real Job

More complications seem in store for the league administration. The disagreement between State Auditor Kositzky and Attorney General Langer over the right of the league judges in particular to draw the \$500 per annum expense money which the league seems to have promised in the campaign last fall would not be drawn by them has assumed really serious proportions, and has split the league

A Stubborn Cough Loosens Right Up

This home-made remedy is a wonder for quick results. Easily and cheaply made.

The prompt and positive action of this simple, inexpensive home-made remedy in quickly healing the inflamed or swollen membranes of the throat, chest or bronchial tubes and breaking up tight coughs, has caused it to be used in more homes than any other cough remedy. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, whooping cough, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2 1/2 ounces of Pinex (60 cents worth), into a pint bottle and fill the bottle with plain granulated sugar syrup, and shake thoroughly. You then have a full pint—a family supply—of a much better cough syrup than you could buy ready-made for \$2.50. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norwegian pine extract, and is known the world over for its promptness, ease and certainty in overcoming stubborn coughs and chest colds.

To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

camp into two factions with a very strong following backing Kositzky. Now comes a falling out between the new Frazier board of regents and the attorney general over the question of the presidency. Langer laid down a certain method of procedure to be followed by the Frazier regents in disposing of Crawford. In their haste they overlooked one or two vital steps according to Langer and he has held that their election of Muir to succeed Crawford was irregular and illegal. Robert J. Muir of Sures, the league's host for president comes back with a hot interview in one of Townley's self-published organs in which Muir declares the regents did follow Langer's directions and that the estimate at

tern general is taking through his fedora. Muir declares he will decline to abide by said attorney general's opinion.

The Kaiser's Secret Army In America

While American manhood takes up the challenge of the Kaiser's armed forces on the seas and fields of Europe, the very sources of its support in this country are menaced by furtive, non-uniformed armies whose weapons are spying, sabotage, bomb-planting, incendiarism, murder, and a hundred forms of insidious and demoralizing propaganda.

What are we going to do about it? The leading article in THE LITERARY DIGEST for December 1st, will give one a clear idea as to what is being done and what it is proposed to do. It presents the facts from many angles and reflects the feeling of the American people on the subject, through the editorial comments of leading publications. Various remedies are suggested—an ominous undertone being evidenced in the statement of the New York Morning Telegraph, which says, "In our judgment these outrages will continue until some spy is caught, convicted, and shot."

Other important topics in this number of THE DIGEST ARE:

An Impartial Weekly Record of World Opinion

In common with every other fair-minded man and woman you want to know what the world is thinking, what public opinion actually is as to the great issues of the day and the epoch-making events that are crowding the international stage. And you want this opinion undiluted, not garbled or toned down to suit your supposed preferences. THE LITERARY DIGEST gives you just exactly this from week to week, summarizing the views of hundreds of periodicals for your benefit, quoting copiously from many of them and striving as far as may be possible to give you the exact atmosphere of each opinion cited. THE DIGEST runs no editorials, makes not the slightest attempt to influence your thinking. It aims simply to record facts, leaving each individual reader to draw his own deductions therefrom. It awaits your verdict today.

When British March Into Jerusalem--?

What Will It Mean to World and Church If Turk Rule is Ended

FIVE TIMES HAS HOLY CITY CHANGED HANDS

BY THE REV. CARLES STELZLE.

When they built a 40 mile railroad from Jerusalem to Joppa, and the call of the conductor supplanted the command of the camel driver, Jerusalem took on a modern air which was the beginning of the end for much of its picturesque and peculiar religious significance.

It has been the battleground of Hebrew, Christian and Mohammedan—of Jew and Greek, of Roman and Turk. Five times it has been taken or retaken, and twice destroyed. For at least a thousand years—with brief intervals—it has been in the hands of the Mohammedans.

And now, if Jerusalem should fall into the hands of the allies, what would happen?

There would probably be a revival of "crusades," but they would be sanitary crusades. An attempt would be made to secure better drinking water. They would introduce a better form of government. Jerusalem would no

doubt soon become a modern city in every respect.

Large numbers of Mohammedans would move out and a considerable number of Jews would move in—but it would probably be a long time before the Jews could control their ancient capital—New York and the United States have become the "New Jerusalem" to great hosts of forward-looking Jews.

The influence of Jerusalem in history has been largely sentimental. It is not likely that its capture by the allies will revive much of this feeling, nor will it influence to any unusual degree the action of the church.

Small bodies of religious enthusiasts may start "movements," but the great body of the church will be unaffected—not because the church has become indifferent to sentiment and religion, but because these are no longer localized—the church is truly trying to spread the fine old spirit of Jerusalem throughout the entire world.

national home land of the Jewish people. The rebirth of Israel as a nation among nations is certain if the adjustment after the war is ended.

INHABITANTS HAVE LONG EXPECTED IT.

DR. CHARLES A. EATON, pastor of Madison Avenue Baptist Church—The conquest of Palestine by Britain is one of the romantic events of the war which may lead to historic results. It will satisfy the conscience of Christendom to see the Turk ousted. The strategic importance of this campaign needs no emphasis. Mastery of Palestine by England means the end of the Prussian dream of empire in the east.

NEW YORK

STRATEGIC VALUE IS EMPHASIZED.

DR. CHARLES A. EATON, pastor of Madison Avenue Baptist Church—The conquest of Palestine by Britain is one of the romantic events of the war which may lead to historic results. It will satisfy the conscience of Christendom to see the Turk ousted. The strategic importance of this campaign needs no emphasis. Mastery of Palestine by England means the end of the Prussian dream of empire in the east.

RESCUE IN THIS WAR IS SIGNIFICANT.

WILLIAM T. MANNING, D. D., Rector of Trinity Church, New York—"The freeing of Jerusalem from the Turk will have great military value and in the moral and spiritual sphere it is of the highest importance. The city hallowed by the footsteps of Our Lord Himself during His earthly work, and associated with the holiest events of the life and death on the cross of our Redeemer, has a sacredness which is beyond expression for every Christian. It is deeply significant that its rescue should come to pass in this war which is being waged by our country and our allies for the defense of every principle of the Christian religion.

TO REMOVE THREAT TO WORLD'S PEACE.

REV. DAVID GREEN, Bishop of the Diocese of New York, Episcopal Church—"The taking from the Turk of control of Palestine will make India and Egypt safe from attack and will thus destroy the threat to the world peace that exists as long as German-dominated Turkey controls the Holy Land."

WAR FOR CONTROL OF BIBLE LANDS.

REV. EZRA S. TITTLE, D. D., President of Drew Methodist Episcopal Theological Seminary, Madison, N. J.—"This war is in a real sense a fight for the control of Bible lands. These comprise a huge triangle nearly 2,000 miles on a side, resting on the Tigris in Mesopotamia, the Nile in Egypt, and the Maritima in Macedonia. Thus Asia, Africa and Europe are interested in the outcome. Palestine is the natural bridge joining these continents and their faiths. And Christians everywhere, especially English-speaking Christians, will have a keen sense of satisfaction that the city for which the crusaders in the Middle Ages endured untold sufferings and fought many battles, is reclaimed.

JEWISH NATION IS SEEN AFTER WAR.

HERMAN GREENSTEIN, Editor of the American Hebrew—"The conquest of Jerusalem by Great Britain will mark one of the greatest epochs in the history of the Jewish people. The dream of Israel since the dispersion is near realization. The ancient land of the Jews is to become once more the

WASHINGTON

SATISFACTION FOR ALL CHRISTIANS.

COLONEL P. H. CALLAHAN, head of all the war camp activities of the soldiers of "Golda's"—"It would be a great consolation and satisfaction for Christian people everywhere to know that Jerusalem is in the hands of Christian people. From the time of the Crusades down it has been a grief and the Holy Land, made holy by its association with the Savior, should be in the hands of Mohammedans. Palestine and Jerusalem are sacred to Christian and Jew alike and they have hitherto been allowed there only on sufferance of the Turk. In English hands, they would come here not as on sufferance but as by right."

IT WILL BE BLOW AT HUN CONTROL.

DR. RANDOLPH McKIM, noted Episcopal clergyman, rector, church of the Epiphany, Washington, D. C., confederate soldier and historian, author of "Christ and Modern Unbelief" and other books—"The capture of Jerusalem by the British army will be a significant event in the development of the world war from a political as well as religious viewpoint. It will be a serious blow to the control which Germany has exercised over the Ottoman Empire. The British army in Mesopotamia may then cooperate with the army of Egypt in the conquest of Syria and all of Turkey east of the Cilician gates. This may mean eventually a campaign against the Turk people itself through a British liberation of the Greek and Armenian Christians in the region."

ROLLER SKATING AT THE ARMORY TONIGHT.

We have just received a consignment of new Hanley roller skates. The rink will be open for skating parties any time, except the regular skating nights.

REALIZATION OF JEWISH GREAT HOPE.

JACOB DE HAAS, secretary provisional Zion committee—"The fall of Jerusalem before the British army will make possible immediate preparations for the establishment in Palestine of a national home land for the Jewish people. This will be the third fall of Jerusalem but this time instead of spelling tragedy to the Jewish people and driving them into exile over the face of the globe, it will mean the realization of their Great Hope."

OF IMPORTANCE HISTORICALLY.

REV. JAMES H. TAYLOR, pastor, Central Presbyterian Church, Washington, President Wilson's pastor—"The fall of Jerusalem will prove an event not only of immense historic importance but also a distinct benefit for civilization. It is an open sore in the life of the world that the Holy Land has been under the dominion of the Turk. We might almost be inclined to regard the event as one of prophetic significance if it points the way of release of not only these people but also of the oppressed of Armenia and Syria. If the Jew shall desire to return to this land, he must be granted not only the right to live there without threat but he must be guaranteed protection of life, liberty and the pursuit of happiness."

ROLLER SKATING AT THE ARMORY TONIGHT.

We have just received a consignment of new Hanley roller skates. The rink will be open for skating parties any time, except the regular skating nights.

SPORT CHATTER

FOR SIX ROUNDS. Jess Willard says he will fight if a suitable purse is offered. Suitable is an elastic word, which in Jess' case probably means about half the gold reserve for six rounds.

Harvard is to have an informal hockey team. The question is if a guy gets clouted on the dome with a hockey stick is the bump supposed to be informal.

We read in the papers every morning about So-and-So beating Hoo-hus in the three cushion billiard tournament and then we wonder what it's all about.

OR SCRAMBLED, MAYBE. With Egg riding in the six day bicycle race we wonder if a spill would result in an omelet.

Which reminds us that the Bolsheviks are trying to make an informal war of it.

Autocrat Ban Johnson must have been greatly surprised when he found there were some A. L. magnates who had nerve enough to oppose his suggestion not to draft ball players. Ban probably had forgotten that even a worm will turn.

Charlie Ebbetts will weep all over Long Island when the National league cuts those 14 games off the schedule.

Lenny Leonard now knows how Alexander felt when he could find no more worlds to conquer.

Heine Zim is perfectly willing to hand Raden credit for that honor. Cleveland is going to give Tougher Ramser the main bout because he was sent to slumber by Lenny Leonard. If he had won they'd given him the public square.

Among those worried most about the lack of good heavyweights for Willard to meet you won't find Jess.

Michigan and Notre Dame are the

Berton Braley Discovers 'This is Wall-St's War'

BY BERTON BRALEY. New York, Nov. 30.—"This is a Wall street war" howl the pacifists and Germans.

I've been denying it up to now, but I've learned they are right.

I went down into Wall street yesterday and discovered how much of a "Wall street war" this is. Everywhere I looked, on banks, brokerage houses, office buildings, were service flags. And pretty nearly every flag had a lot of stars.

J. P. Morgan's must have had a hundred or more, the National City bank's was sprinkled even more plentifully. Kuhn-Loeb, Henry Clews—in brief every big banking and brokerage house in the street had a banner flying in the breeze with scores of stars sewed upon it.

You know what a service flag is, of course—and how each star it exhibits represents one man in the service of the army, navy or marines. And Wall street has more service flags per building than any street I've seen.

"This is Wall street's war" and the street is sending its men plentifully to carry it on.

This is also Broadway's war and the Bowery's war, and Little Old Homeville Main street's war, and the country road's war—in other words, it's everywhere and everybody's war and never in the history of the country has there been such universal participation.

Naturally the selected army draws from all classes alike, but if you'll just take a look at the make-up of our volunteer forces too, you'll find that capital and wealth have sent their sons in just as large numbers, proportionately, as labor and poverty.

These service flags on every street and in every town represent the true spirit of America, and so long as they flutter in the mind in such numbers we can be assured that the mouthings of pacifists and seditionists are only as a tiny whiff of sewer gas against the great wind of open air.

only western football teams to meet eastern gridironers this fall, which is a mighty lucky thing for the east, as per usual.

While we've outgrown the pastime of picking All-National and All-American league teams, we still would rather miss our Thanksgiving dinner than to forego selecting All-American, All-Western, All-Conference, All-State, All-County, All-City, and All-Ward football teams.

My, what a whale of an army would be on hand to bean the Kaiser if all the castoff New York American league team's managers enlisted!

Arthur Cummings never acquired as much fame inventing the curve that fell to Eddie Cicotte for not producing a "shine ball."

Don't fail to eat your lunch at Paterson's Dairy Lunch.

Civilians Can Pay Premiums for Soldiers

Aberdeen, S. D., Dec. 1.—A definite ruling that civilians may pay premiums on federal insurance for soldiers and sailors, has been received here by A. E. Chamberlain, formerly institute conductor for South Dakota. The ruling came in response to his inquiry whether it was possible for civilians to pay the premium instead of having the government take them from soldiers and sailors' pay. He offered to pay the insurance on the lives of two soldiers, and expressed the belief that many other civilians would be glad to "do their bit" in the same manner.

Recently Mr. Chamberlain received a letter from S. Z. Rotschild, chief of the division of information, in answer to his communication, in which the chief stated that "there is no provision in the act of October 3, 1917, or in the regulations of this bureau, prohibiting the payment of soldiers' premiums by persons other than the person himself."

"Later, Mr. Chamberlain received another letter from C. F. Nesbit, commissioner of the war risk bureau, in which he says: "The suggestion you make is patriotic and exceedingly practical and helpful. This department has ruled that insurance may be carried on men in the military and naval service, the premiums paid by persons entirely outside of even their family connections. In such cases, the insurance, when payable is to go to their estate, or to the beneficiary or beneficiaries coming within classes A and B of the act, designated by the person insured."

Mr. Chamberlain has sent to the bureau a postoffice money order to pay two months' premium on policies of \$5,000 each for each of two privates from South Dakota, whom he named. He did this, he explained so as to insure speedy action on regulations governing such payment of premiums. He said he believed many lodges, Sunday schools, college fraternities, employees of stores and shops, in many instances firms who had employees in the service, and in others, many men who like himself were too old or otherwise incapacitated for the service, and

friends of the men in the service, would enjoy paying the premiums on a liberal amount of insurance for the boys who are doing the real fighting, and for the nurses who are taking care of the wounded.

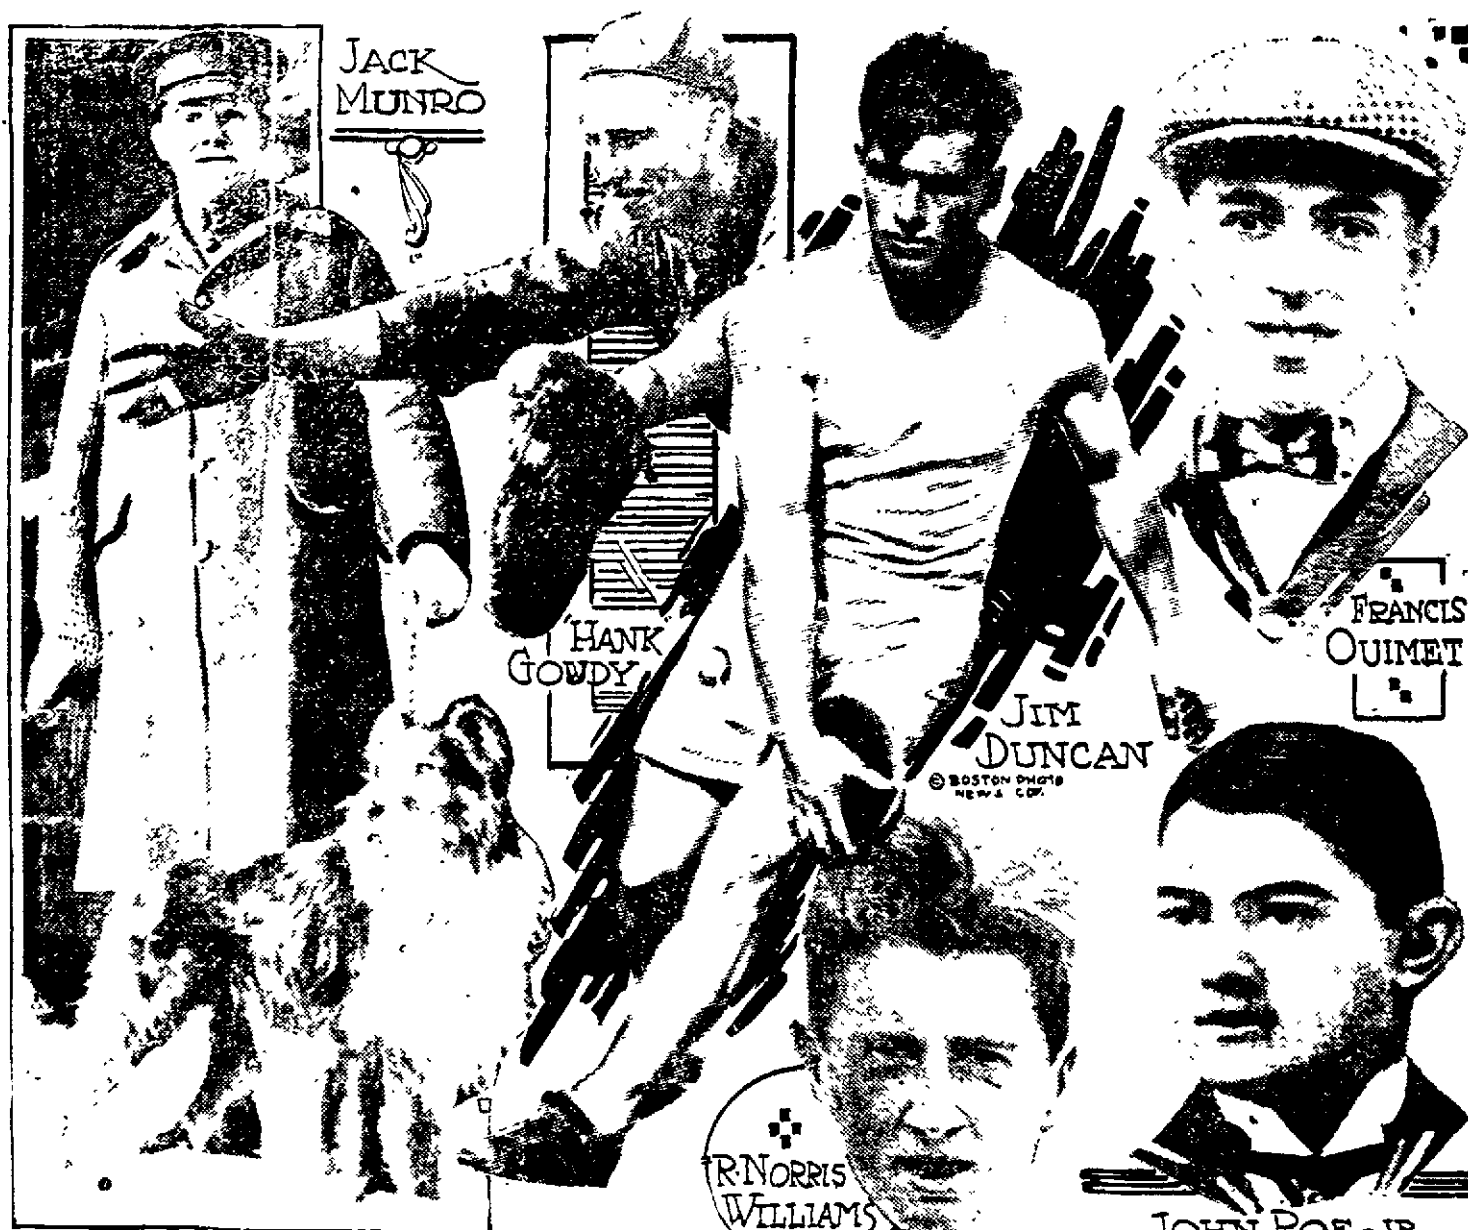

"This is the first instance," said Mr. Chamberlain, "where any provision of this character has been made for the safeguarding financially of the dependent of soldiers or nurses, and for making any provision by which the men and women coming from the ranks injured may fit themselves for employment despite their hurts."

Mr. Chamberlain called attention to section 304 of the act, which reads: "That in case of dismemberment, of injuries to sight or hearing, and of other injuries commonly causing permanent disability, the injured person shall follow such course or courses of rehabilitation, reeducation and vocational training as the United States may provide, or procure to be provided. Should such course prevent the injured person from following a substantially gainful occupation, while taking same, a form of enlistment may be required which shall bring the injured person into the military or naval service. Such enlistment shall entitle the person to full pay as during the last month of his active service, and his family to family allowance and allotment as hereinbefore provided, in lieu of all other compensation for the time being."

"In case of his willful failure properly to follow such course or to so enlist payment, of compensation shall be suspended until such willful failure ceases and no compensation shall be paid for the intervening period."

"In discussing this provision, Mr. Chamberlain said: "This seems to preclude the possibility of our having returned from the war many persons who will become dependent. A dependent is a thing not to be desired from a financial standpoint, and still less to be desired from the standpoint of the interest of a community or nation. This section of the statute is new in principle but is just, reasonable and right."

THEY'RE ALL OVER THERE

By PAUL PURMAN.

The recent action of Ban Johnson in suggesting that the government be asked to exempt about 300 ball players so that baseball would not have to be discontinued left a doubt as to whether it was in the mouths of champions of Americans, who denied the suggestion, unattractive and doubtful, or whether it was the suggestion of one of the greatest men in America—greatest sport would be a party to such a proposition that all sport first be clouded with suspicion.

This feeling would naturally be supported by the failure of the country's greatest boxers to enlist and the haste in which they sought exemption from the draft.

But the attitude with which John

McGraw and a number of American boxers, magnates repudiated Johnson's suggestion did much to show the real attitude of the majority of big men in the sport.

As for as other branches of sports are concerned, the fact that stars of the diamond, gridiron and oval offered themselves among the first to be drafted as wellington soldiers, was a very different attitude from that of the athletes of the world.

ally in future annals of sport than that of Johnnie Poe, the Princeton star, one of the first Americans to offer himself for liberty long before America joined the war. His grave, near where he fell in a charge in the battle of Mons, is an eternal monument to American sport.

Since then hundreds of other ball players have followed him. Every training camp is filled with men whose names have been written in football history in the past. Two or three American teams of the past can be found in service.

Hank Gowdy, hero of the 1914 world series, was the first baseball player to don a uniform. Scores of other players from the big leagues and the minors have followed him.

low walked down the gangplank of a boat at an eastern port. One arm, paralyzed, hung in a sling. The other gripped a leash on a big collie, Jack Munro, the first of our boxers to see real service, had come back, incapacitated for further duty by wounds received in a charge.

Tennis playing seems to develop those senses necessary to be the aviator for seven of the "big ten" of 1916 are in the aviation corps. Golf has given France Quimet and many others.

There won't be many track records broken next year. There are no athletes left in college to break them. Practically every man who has hung up now standards over the cinders may now be reached by addressing

When the Skin Seems Ablaze With Itching and Burning

There's just one thing to do.

If your skin seems ablaze with the fiery burning and itching of Eczema, real and lasting relief can only come from treatment that goes below the surface—that reaches down to the very source of the trouble. So-called skin-diseases come from a disordered condition of the blood, and the proper treatment is through the blood.

not find a blood remedy that approaches S. S. S. for real efficiency. It has been on the market for fifty years, during which time it has been giving uniform satisfaction for all manner of blood disorders. If you want prompt and lasting relief, you can rely upon S. S. S. For expert advice as to the treatment of your own individual case, write to-day to Chief Medical Adviser, Swift Specific

GENERAL BYNG'S CAPTURED AREA IN CAMBRAI NOW HELD IN FULL POSSESSION OF BRITISH ARMY

**Civil Population of Town Released
After Three Years of German
Servitude**

**HINDENBURG LINE IS
GROUND INTO POWDER**

**Germans Bring Up New Artillery
to Replace Guns Captured but
Effect Weak**

London, Dec. 1.—Strong forces of Germans attacked the British on a wide front in the Cambrai sector this morning, but were repulsed after heavy fighting in which the attackers sustained great losses according to the official statement issued tonight. To the southward, in the region of Connelieu, the enemy entered British positions at several points and penetrated their line for some distance, but later were driven back.

INCIDENT IS CLOSED

British Army Headquarters in France, Friday, Dec. 1.—The British army have virtually completed the consolidation of the greater part of the area wrested from the enemy in the Cambrai push. The work accomplished in a few days is little short of miraculous, and today, throughout much territory recently held by the enemy, the British war machine is running like clockwork.

The famous Hindenburg line has been so thoroughly punctured by well built highways and tracks that the famous German defenses seem little more than a myth. As one goes about this sector it appears incredible that the labyrinth of defenses built at such pains by the Germans during the last three years has not always been in the hands of the men now holding them.

The Germans brought considerable new artillery into this region to replace the guns that General Byng captured, but their fire is still weak compared with that on the Flanders front. The correspondent in winter today to the forward areas, found Bourlon wood and the surrounding country under very heavy enemy gun fire, with frequent barrages of gas shells. This afternoon the big guns poured a deluge of explosives along the ridge just south of Moerwaere.

Graincourt, Anneux and Flesquiere and other towns are being methodically shelled and Graincourt rapidly is being gradually reduced to a pile of bricks. Cambrai appeared thus far to have escaped the ravages of the artillery.

The civilian population of Cambrai, after living three years almost like prisoners under the iron rule of the Prussians, have been evacuated. It is reported that trains are still running and there is considerable industrial activity in Cambrai, but all for military purposes.

QUIET ON THE FRONTS

Comparative quiet prevails along the battle fronts, except for heavy bombardments on various sectors. Even on the Italian front the fierce engagements by infantry, in which the men often came into hand to hand encounters, have turned into duels with the big guns in the hilly region north of the Venetian plain and along the middle and lower Piave river.

Around Cambrai on the French front, where last week the British under General Byng made notable advances toward the important railway junction, virtual quiet prevails so far as the infantry is concerned, except for an attack by the Germans near Connelieu, at the southerly base of the salient formed by Byng's advance. No details have been received regarding this attack.

Activity in Palestine

In Palestine on the line extending from the northeast of Jerusalem to the sea, the Turkish forces facing the troops under General Allenby are showing considerable activity, but as yet have made no maneuver in the nature of a general attack. Several local fights have taken place, however, and these, according to General Allenby have resulted favorably to his men.

Following Germany's announced willingness to treat with the Russian Bolsheviks for an armistice having as its purpose ultimate peace comes the statement that Austria-Hungary is likewise disposed. Already the government of the Dual Monarchy has sent an official reply accepting the present Russian government's wireless proposal for negotiations. Unofficial reports say that the Russo-German plenipotentiaries will meet at noon Sunday on the northern Russian battle front and thence proceed by train to the German headquarters at Brest Litovsk to discuss the Bolshevik project.

Lansdowne Bitterly Discussed

The letter of the Marquis of Lansdowne, one of Great Britain's leading statesmen, pleading for a re-statement of the war aims of the entente allies and favoring an attempt to secure peace before "the prolongation of the war leads to the ruin of the civilized world," is still the theme for bitter discussion in England. Lord Robert Cecil, the blockade minister, and Andrew Bonar Law, chancellor of the exchequer, have stated that the views of the marquis were not those of any of the members of the British cabinet. At a meeting of the unionist party Bonar Law repudiated the letter of the Marquis of Lansdowne, describing it as a "disaster" while the meeting in a resolution condemned the utterances of the marquis. Units of national guardsmen from all the states in the country have arrived in France. Some of the men already in training in sound of the guns on the battle front.

120 Days Produces Sea Goers

A Pacific Port, Dec. 1.—The first wooden vessel for the government merchant fleet to be launched anywhere in the United States will take the water here tomorrow. The ship, of 4,000 tons dead weight, 290 feet over all, has been built in what is claimed to be the world record time of 120 days. Mrs. Woodrow Wilson, wife of the president, has named the vessel, and a young society miss will christen the craft at exercises attended by the governor of the state and members of the federal shipping board.

INDUSTRIAL SERVICE BUREAU WILL STUDY LABOR ADJUSTMENTS

Dean Marshall of School of Commerce, Chicago University, in Charge

DEALS WITH PROBLEMS OF WAR EMERGENCIES

Washington, Dec. 1.—Preparations for greater governmental aid in adjusting labor supply to war needs were put under way today by the council of National defense with the appointment of L. C. Marshall, Dean of the school of commerce, and administration of the university of Chicago, as chief of a newly created section on industrial service.

The new section will undertake preliminary investigation of the increasing number of labor problems arising in direct ratio to the growing demands for war supplies. This inquiry, it is announced, will have four main objects:

To determine present and probable future demand for labor in war industries.

To determine in connection with the priorities committee of the war industries board the relative priorities of the labor demand;

To arrange for the supplying of the demand through the department of labor or such other governmental or civilian agencies as can best meet the demand; and,

To determine the needs for dilution of labor, including the introduction of women into industry, and to recommend policies to be followed in regard thereto.

When the facts have been established in the case of labor shortage handicapping any line of industry, the council will look to representatives of the workers to supply available men.

Everything suggestive of coercion or conscription of labor apparently is being avoided by the council.

Meeting Demands Removal

Seattle, Wash., Dec. 1.—Resolutions calling upon the city council to impeach Mayor Hiram Gill because of his alleged laxity in suppressing vice were adopted tonight by a public mass meeting here. The meeting place, which has a capacity of 5,000, was packed. The resolutions were adopted by acclamation.

War Measures

We have just been notified that the production of Buick Automobiles at the factory will be reduced 40 per cent to take care of government materials. A four or cut may be expected. This means we will get about half as many cars as we have in the past, and there have never been enough Buicks any sason yet. Moreover reduced product on will mean higher cost of manufacture, and a raise in price will follow. Buy your Value in Head Buick NOW

TWIN CITY TRACTION ALTERCATION TENDS TOWARD NEW CRISIS

Minneapolis City Council Adopts
Resolution Proposed by the
Strikers

SEEKS FEDERAL CONTROL FOR PERIOD OF THE WAR

Minneapolis, Minn., Dec. 1.—The labor situation in Minneapolis and St. Paul growing out of the controversy between the Twin City Rapid Transit company and the advisability of sympathetic strikes was discussed by union leaders in the two cities.

Several hundred union street car men, reinforced by more than a thousand sympathizers marched to the city hall and presented to the city council a resolution urging the national council of defense to order the reinstatement of the union men or to take over the street car lines in the two cities for the period of the war. The city council adopted the resolution tonight with but one dissenting vote.

Company officials, in reply to telegram from Secretary of War Baker and the federal department of labor urging arbitration declared that the differences already had been submitted to arbitration and pointed to the order of the state public safety commission instructing the men to discard their union buttons and return to work.

"It is a clear case of 20 per cent of the company's trainmen trying to force unionism upon 80 per cent, or over 1,500 of our men," President Horace Lowry wired Secretary Baker, adding that he could see no reason for again attempting arbitration.

Evidently fearing a recurrence of the rioting incident to the street car strike last month, Governor Burnquist issued a statement in St. Paul today warning officials of the two cities that failure to maintain peace would be grounds for prompt removal.

CAR CLEANERS

Women Replace Men in Pacific Electric

Los Angeles, Calif., Dec. 1.—A hundred and fifty women are to replace men soon in the Car cleaning department of the Pacific Electric railway, it was announced here today.

A Great Discovery

Swollen hands, ankles, feet are due to a dropsical condition, often caused by disordered kidneys. Naturally when the kidneys are deranged the blood is filled with poisonous waste matter which settles in the feet, ankles and wrists; or under the eyes in bag-like formations.

As a remedy for these easily recognized symptoms of inflammation caused by uric acid—as scalding urine, backache and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, lumbago, sciatica, gout, it is simply wonderful how quickly Anuric acts! The pains and stiffness rapidly disappear.

The very best possible way to take care of yourself is to take a glass of hot water before meals and Anuric, the discovery of Dr. Pierce of Buffalo. Step into a drug store and ask for a 50c. package of Anuric, which is many times more potent than lithia and eliminates uric acid as hot water melts sugar. A short trial will convince you.

MANY WOMEN OF OUR HOME STATE WOULD TESTIFY.

Lewiston, Idaho.—"When I was a girl just coming into womanhood I suffered greatly and it would leave me so weak that I could hardly stand. Nothing helped me until I took Dr. Pierce's Favorite Prescription. The first bottle gave me such relief that I continued to use it until I was perfectly healthy."—Mrs. DELLA LAMUS, 208 8th St.

"Keep Well—Often all you need is Dr. Pierce's Pleasant Pellets for stomach, liver and intestines."

Dr. Pierce's Favorite Prescription is a powerful medicine for women's ailments. It is a blood purifier and a general tonic. It is a powerful medicine for women's ailments. It is a blood purifier and a general tonic.

Documentary Stamps on Business Menu From Date, Checks Excepted

Washington, Dec. 1.—Documentary stamp taxes of the war tax bill will go into effect tomorrow. Revenue stamps must be affixed to bonds of indemnity or indebtedness, capital stock issues, stock transfers, produce sales on exchanges, drafts, promissory notes, conveyances and deeds, customs house entries, steamship tickets, proxies as signments of power of attorney, playing cards and parcel post packages. None are required on checks.

All stamps are sold by postoffices except those for stock transfers and produce sales which are distributed through revenue collectors. Millions of dollars in receipts are expected to reach the treasury from this source.

The taxes are similar to those imposed during the Spanish war and by emergency revenue act of 1914.

On capital stocks, transfers, from which the government expects to derive a large revenue, and which will fall heavily on stock exchanges, the tax is two cents for each \$100 or fraction of the face value. Stamps are to be affixed to the stock books, not to the certificate of sale or exchange.

Light Four Model 90 Small Sedan

Women Replace Men in Pacific Electric

Get This Necessary Out-Door Home

CHRISTMAS offers a logical opportunity to equip your family with this all-weather, all-purpose Model 90 Overland Sedan.

With it you are enabled to keep up your activities during the bad winter months.

Its service is indispensable in countless ways.

It provides the five essentials for complete satisfaction as in no other car—Appearance, Performance, Comfort, Service and Price.

The windows drop into the sides of the body and doors, and can be quickly opened or closed as desired.

There is a dome light in ceiling, three silk roller curtains, parcel pockets at both sides of rear seat, foot rail, windshield wiper, and nickel handles to close doors from the inside.

The entire top and sides are decorated with gray and black striped cloth. Every inch of the floor is covered with thick carpet to match the walls and ceiling.

The body is Brewster Green with black top.

It has 4-inch tires, non-skid rear; 106-inch wheelbase; Auto-Lite electric starting and lighting, and vacuum fuel system.

Documentary Stamps on Business Menu From Date, Checks Excepted

Washington, Dec. 1.—Documentary stamp taxes of the war tax bill will go into effect tomorrow. Revenue stamps must be affixed to bonds of indemnity or indebtedness, capital stock issues, stock transfers, produce sales on exchanges, drafts, promissory notes, conveyances and deeds, customs house entries, steamship tickets, proxies as signments of power of attorney, playing cards and parcel post packages. None are required on checks.

All stamps are sold by postoffices except those for stock transfers and produce sales which are distributed through revenue collectors. Millions of dollars in receipts are expected to reach the treasury from this source.

The taxes are similar to those imposed during the Spanish war and by emergency revenue act of 1914.

On capital stocks, transfers, from which the government expects to derive a large revenue, and which will fall heavily on stock exchanges, the tax is two cents for each \$100 or fraction of the face value. Stamps are to be affixed to the stock books, not to the certificate of sale or exchange.

For produce sales on exchanges the tax is 2 cents for \$100 of value of the merchandise covered by the agreement and stamps are to be affixed to the memorandum or bill of sale. The law covers transferred or scratch sales and sales for future delivery.

Bonds of indebtedness are taxed 5 cents for each \$100 of face value or fraction and renewals are taxes as new issues.

Indemnity and surety bonds are subject to a tax of 50 cents, or one per cent of the premium charged for the execution of the bond. Bonds or policies of reinsurance are exempt.

A tax of 5 cents is levied on each

original issue of certificates of stock either on organization or reorganization of face value of \$1 or over.

To meet the practice in some states of issuing stock without face value it is specified that the tax shall be laid on the actual value if there is no face value.

For drafts or checks payable other than at sight or on demand and for promissory notes and their renewal the tax is 2 cents for each \$100 or fraction. This levy will lay a burden particularly on the banking business. Ordinary bank checks are not taxable.

Really conveyance and deeds are taxed 1 cent where the value of the interest conveyed is between \$100 and \$500 and 2 cents for each additional \$500 or fraction. Deductions may be made of only a lien or encumbrance remaining on the property at the time of sale.

Before any parcel post package may be accepted by a postoffice it must bear, in addition to the regular postage revenue stamps amounting to one cent for each 2 cents postage or fraction.

Passage tickets to trans Atlantic, South American, or other ports not in the United States, Canada or Mexico are taxed according to a sliding scale, running from \$1 on tickets costing

between \$1 and \$5 to \$5 for tickets costing more than \$5.

Proxies for voting at any meeting, except of religious, charitable, fraternal, educational or literary organizations, must bear 10 cent revenue stamps. For a power of attorney the tax is 25 cents. In addition to the old tax of 2 cents on playing cards, a new tax of 5 cents a pack is imposed.

Proxies for voting at any meeting, except of religious, charitable, fraternal, educational or literary organizations, must bear 10 cent revenue stamps. For a power of attorney the tax is 25 cents. In addition to the old tax of 2 cents on playing cards, a new tax of 5 cents a pack is imposed.
